

Important Notice: Dumpster Consolidation in Tropic

Garfield County is requiring the consolidation of all community dumpsters into one centralized location. This decision was made by Garfield County and is not a Town of Tropic decision. The new dumpster compound has been completed, and the County will begin moving all dumpsters to the new site starting **Wednesday, January 28**.

Once this transition is complete, **all residents will need to take their household waste to this centralized location.**

New Dumpster Location

The new site does **not** have a street address. It is located:

- On the **south side of Bryce Way**
- Approximately **three-quarters of a mile past Bryce Valley High School**
- **Immediately adjacent to the agricultural waste pit**

Important Reminders

- The **dumpster located at the Town Yard is not for personal or household trash** and will not be available for residential use.
- All community dumpsters will be consolidated at the new county site.

Optional Residential Garbage Pickup

Residents who prefer **curbside garbage service** may arrange for **individual home pickup**.

- To order a personal garbage can and set up service, please contact **Hughes Waste** directly.

Questions

This change is being implemented by **Garfield County**.

Please contact Garfield County with any questions regarding the dumpster consolidation or the new site.

Thank you for your cooperation and understanding as this change takes place.
